“Data Science” Workshop Enhances Student’s Knowledge

The College of Engineering at Al Ain University of Science and Technology –Abu Dhabi Campus- organized and conducted a workshop entitled "Data Science and Blockchain" in collaboration with the IBM-Dubai for students and faculty. The workshop was technically sponsored from the IEEE UAE section, presented by some experts in the field of engineering and it was attended by Dr. Qutaibah Al Thebyan, Dean of the College of Engineering, Dr. Faten Kharbat, Deputy Dean of the College of Engineering, academic staff and students of the college.

The aim of this workshop is to provide successful training on Blockchain principles and a full introduction on Data Science. The participants were involved in the practical session, working on IBM Blockchain environment and IBM Watson intelligent workstation. Both workshops were very useful and open different insights for students and faculty.

Participants actively took part in the workshop by answering quick questions, building codes, as well as sharing their training notions and experiences.

Organizing this workshop, aims to enhance the knowledge and skills of the academics and students, in addition to, keeping them updated with new information and technologies in the engineering field.
