The name of the Computational Approaches to Modeling Language (CAMeL) lab is a bilingual play on words: it evokes the sturdy desert animal name in English (from Arabic جمل *jamal*), and the Arabic word كامل *kamil*, meaning 'complete, full, whole, perfect'. The logo is a calligraphic abstraction of the Arabic name.

COE Webinar in Arabic Natural Language Processing at Camel Lab

The College of Engineering (CoE) at Al Ain University, Abu Dhabi Campus organized a webinar in Arabic Natural Language Processing. The distinguish keynote speaker was Prof. Nizar Habash, the Program Head of Computer Science at New York University Abu Dhabi (NYUAD). He is also the director of the Computational Approaches to Modeling Language (CAMeL) Lab. Prof Habash, presented an introduction about Natural Language Processing (NLP) in general, then moving towards the challenges in Arabic NLP in specific, and finally ending the journey at the CAMeL Lab in NYD, presenting the ongoing projects and the CAMeL tools that were built to provide solution to some of the Arabic NLP challenges.
